Updated information for Bainbridge Island electric reliability improvements

July 6, 2017

Dear PSE Customer,

You may have recently received a letter letting you know that we will be in your neighborhood installing underground electric wires and related equipment. In order to complete this project in a timely manner we will need to close a section of West Blakely Avenue Northeast from Northeast Beck Road to Northeast Oddfellows Road. West Blakely Ave Northeast will remain closed during working hours, for the duration of the project. A detour will be available and signs will be clearly posted to guide vehicles and pedestrians safely around the road closure.

This work will allow PSE to more leverage in isolating problem areas during an outage and will give us more options to reroute power to your home as quickly as possible. Our crews will do their best to reduce impacts to nearby neighbors. Please see below for project details.

Project details

- Who:** Electric crews from PSE and Potelco
What: Installing underground electric wires and related electrical equipment
When: Starting early-July and expected to last approximately three months
- Project duration could vary based on weather and crew assignments
 - Work hours are typically Monday through Friday, 8 a.m. to 4 p.m.
- Where:** Blakely Avenue Northeast, Bainbridge Island, (see updated map on back)

What you can expect

- In preparation for this work, you may see trees and brush being trimmed along the project route
- **Some customers may experience a temporary interruption of power during this time. We'll notify those impacted customers ahead of time**
- Signs and traffic control flaggers will guide vehicles through the work zone
- There will likely be noise from trucks and heavy machinery during working hours

We're proud to serve in your community and aim to complete the work with as little disruption as possible. Thank you for your patience as we work to complete this project. If you have any questions or concerns, please contact me at the information below and reference project **#101102724**.
